

PRESS RELEASE

30 September 2015

Governor Erdem Başçı's Presentation on "Prudence as a Fuel of Balanced Growth" in Budapest

Erdem Başçı, Governor of the Central Bank of the Republic of Turkey, delivered a presentation on "Prudence as a Fuel of Balanced Growth" at "The Future of The Banking System in The CEE Region Conference" held by Magyar Nemzeti Bank on Wednesday, September 30th, 2015 in Budapest.

Governor Başçı emphasized the following points:

- Macprudential policies have improved both the pace and the composition of credit.
- Macprudential policies have been essential in containing the current account deficit.
- The improvement in the current account balance is expected to continue in the forthcoming period.
