Footnotes:

1. "Share Participations" and "Other Assets/Other" items under the balance sheet of the Central Bank, which comprised "I.B. Other Foreign Currency Assets" section, are not liquid assets according to the IMF's reserve definition. Hence, they were excluded from above-mentioned section as of January 2013, but still kept in the books of the Central Bank of Turkey.

2. Foreign Exchange Deposit Accounts with Credit Letters of Turkish citizens residing abroad held in Central Bank with remaining maturity of one year or less are reported in section II-1 of the template as predetermined drains with principal and interest payments breakdown.

3. Commercial banks' reserve requirements held at the Central Bank as foreign currency and gold are classified in section III-1-b of the template under "other contingent liabilities" as total. Standard gold held as required reserves recorded USD 13764 million in July 2017.
